[AF&PA School Recycling Award](#)

Entry deadline: **February 9, 2010**

Award winners will be announced in March and will be featured in national and local media outlets and on the paperrecycles.org website. Winners will receive a cash prize and original framed artwork.

Paper recycling is a simple way for individuals and organizations to be good environmental stewards. In 2008, 57.4 percent of the paper consumed in the U.S. was recovered for recycling. Programs like those recognized as AF&PA Recycling Award winners will help us reach the industry goal of 60 percent recovery by 2012.

For educational and classroom resources and materials; community, workplace, and school recycling best practices; and a variety of other interactive features, visit paperrecycles.org.
